Large Fox	24	20	15	10	6

dimensions in inches

- Larger boxes have doors which latch shut and a latch to hold the roof shut so they can be used to transport animals.
- Larger boxes made for outdoor use should have roofs slanted away from the entrance to shed rain.
- Boxes may be shellaced with non-toxic shellac. Do not paint boxes as animals may ingest any coating as they chew on the box.
- Use two hinges for top and for door, optional hook & eyes closures
